SOME IMPORTANT INFORMATION

~~Avoid disappointment~~ — buy the wool recommended.

Buy wisely — buy enough of the one dye-lot — the same dye-lot cannot be repeated.

HOW TO CHECK YOUR TENSION—Before you commence knitting, check your tension carefully; on this depends the success of the finished article. Take the wool and needles specified in the instructions, cast on 20 stitches, work 20 rows in plain smooth fabric. Lightly press work. Check the tension by placing an inch tape across the stitches, count the exact number of stitches to one inch and compare with the tension

given in the instructions. All tensions are measured over plain smooth fabric, lightly pressed. If your tension is too loose try a size finer needle. If your tension is too tight try a size coarser needle. If there is more than one size of needle recommended in the recipe and you alter the needles to obtain the correct tension in plain smooth fabric, corresponding alterations must be made to the needles throughout the instructions.
